RATIFICATIONS EXCHANGED AT PARIS

Putting Peace Treaty Into Effect—United States Only One of Big Five Out

(By Associated Press)
Paris, Jan. 10—Bulletin—The treaty of Versailles making peace between Germany and the allied powers was put into effect this afternoon by an exchange of ratifications. Baron Kurt Vonersner head of the German mission, affixed his signature at 4:09 o'clock, and the entire ceremony, which took place in Clock Hall at the French Foreign Ministry, was completed at 4:16 o'clock.

Previously Von Lesner signed the protocol of November 1st, providing for reparations to the sinking of the German warships at Skapa Flow, and to insure the carrying out of the armistice terms. Peaceful relations between Germany and the greater number of the nations engaged in the great war with her, are established by the action taken at Paris today. The peace treaty now goes into effect as between Germany and those powers that have finally ratified it. Great Britain, France, Italy, Japan, Belgium, Bolivia, Brazil, Guatemala, Panama, Peru, Poland, Siam, Czechoslovakia, and Uruguay, the United States alone of the big five not having ratified it.

The treaty not only defines terms of peace with Germany, but contains the League of Nations covenant, and provisions for an international labor congress.

Speedy action following the acting in Paris today is expected to be the presentation to Germany of a list of war criminals to be demanded by the Allies for trial.

The immediate consequence of the exchange of peace treaty ratifications will be putting the League of Nations into being which, Supreme Council decided today, will occur in Paris, January 16th.

The ceremony was characterized by formal politeness to the exclusion of all cordiality except between allied delegates. Von Lesner made a movement as if to put out his hand as Clemenceau signed, but seemed to check himself when he saw the French Premier kept his gloved hands at his side.

Doesn't Affect U. S. Trade

Washington, Jan. 10—Officials today said coming into force of the German peace treaty will not affect the United States, while technically a state of war between this country and Germany exists, trade between the two countries was resumed some months ago and is steadily increasing. The United States, however, cannot sent consular agents into Germany until the state of war is ended.

GERMAN GOVERNMENT REPORTED OVERTHROWN

(By Associated Press)
Brussels, Jan. 10—Bulletin—Travelers from Germany reaching here today, brought unconfirmed reports that the German government has been overthrown. It was reported the Socialists were masters of the situation and that a general strike had been declared throughout territory not under allied occupation.

The Brussels report is not confirmed from any other source and may be noted it lacks positive information. If it should prove true there had been a new uprising in Germany, it would appear to have been deliberately timed to coincide with the date set for putting the Versailles peace treaty into effect.

London, Jan. 10—A message from Berlin via Copenhagen today failed to indicate anything of an extraordinary nature foreseen in Germany up to late last evening.

TOOK SECOND SHOT TO KILL OFFICER

Johnson County Murderer Still At Large Writes Paper, Cor rect Account Of Killing

The State has offered a reward for the capture of H. B. and Ike Kirk, accused of the murder of a deputy sheriff in Johnson county. Friends of the dead man had offered a reward of \$125 and the county had offered a similar amount. A dispatch from Ashland had this interesting story of the killing:

On Saturday a local newspaper published an item of a shooting in Johnson county, during which Deputy Sheriff Wells and Detective Harmon were killed by two brothers, Isaac and Hebe Kirk, at the head of Daniels Fork. The authorities have been unable to arrest the brothers although a large reward has been posted for their apprehension.

Kirk, a stickler for pure facts, writes the paper to say he did not kill Wells at the first shot—he had to fire twice. His letter follows in part:

"Beach Fork, Jan. 4. "I saw your story in the issue of your paper about me and my brother killing Wells and Harmon. I want to tell you, you have made a strong statement, I killed Wells, but it was the second shot, you said the first. I think it was Hebe, who killed Harmon. We both were shooting. Sheriff Stambaugh and Policeman James Melvin was over here the same night but they set in a chimney corner by a friendly fire until morning and returned back to Paintsville, which was good they did."

Kirk continuing, asserts he visited the house where the officers were quartered that night and saw Stambaugh and Melvin through the window. He wanted to shoot Stambaugh then he declares, but refrained from doing so when his companion objected.

He and his brother made up their minds to "get them" the next day, he writes, but the officers left at daybreak. Kirk concludes, "We are still at the old stamping ground. I am writing this to Sheriff Stambaugh today."

FIRST TIME SERVICE 1898

Has Foreign Heavyweight Aspired To Championship

New York, Jan. 10—Should Jack Dempsey and Georges Carpentier meet in the ring during the coming year, as appears most probable, it will be the first time since March 22, 1898 that a foreign heavyweight has been a serious contender for the World's championship in this class. On that date Jim Jeffries knocked out Pete Jackson in three rounds and while the famous Australian negro was but a shell of his former self, he still carried the European heavyweight honors. The victory gave Jeffries the right to the World's heavyweight title beyond dispute.

Jackson was the first Australian heavyweight champion. Later he added title of English champion by knocking out Frank Slavin in London when he entered the ring against Jeffries he was the holder of European honors while Jeffries held undisputed title to the American championship. Jeffries' honors in turn passed to Jack Johnson, Jess Willard and on July 4, 1919 to Jack Dempsey.

Carpentier by his two defeats of Bombardier Wells and his latest victory over Joe Beckett holds the title of European champion. Should he face Dempsey during the next few months the French pugilist, who began his ring career as a featherweight, will be the first foreign heavyweight in several decades, to enter the arena against an American with anything like a fair chance of winning the World's heavy-weight championship.

GOT YOURS?

Every one of Uncle Sam's 1000,000,000 nephews and nieces had a cash allowance of \$55.89 on January 1, unless the profiteers had managed to grasp it, the Treasury Department says. This figure indicates an increase in national wealth of 13 cents per capita since January 1, 1919. The total amount in circulation now is \$5,960,382,866 as against \$5,951,368,123 in 1918.

STATE GAME LAWS TO BE AMENDED

Local sportsmen are interested in news from Frankfurt that a bill proposed by the Game and Fish Commission to make the State law conform with the federal regulations for the protection of game birds, song birds and insectivorous birds, will be introduced at this session of the Legislature.

In 1918 the Federal Congress passed a law known as the enabling act giving the Department of Agriculture authority to fix zones in which and the time migratory game birds might be lawfully killed. This was done in order to make the treaty between the United States and Canada for the protection of migratory birds operative.

The regulations fixing the open and closed season upon game birds are now drawn by the Bureau of Biological Survey of the Bureau of Agriculture.

The Kentucky Game and Fish Commission thinks that some of the regulations as prescribed by the federal government are discriminatory and are now endeavoring to have them removed, but deem it advisable for the protection of the citizens of Kentucky to recommend to the Legislature that measure making the Kentucky laws governing migratory birds conform to federal regulations be passed.

The Commission was very much gratified that Governor Morrow in his message to the Legislature did not recommend the abolishment of the department of laws pertaining thereto. In fact, it is inclined to the opinion that in a subsequent message to the General Assembly Governor Morrow will make some recommendations in behalf of the Game and Fish Commission.

Steady Demand For Orphan Babies

(By Associated Press)
Chicago, Jan. 10—Orphan baby girls from six months to a year old are readily adopted. In fact there is a steady demand for such waifs, while boy infants and children from two years old up are less often sought according to the matrons of Chicago orphan homes and child welfare workers.

"If I could have babies to order I could find homes for 500 of them a year," said Frances C. Shepman of the Foundling's Home. "Many people want little ones with golden hair and blue eyes but brown eyes and hair are the favorites of others." In explanation of the preference for little girls one matron said: "Wives usually pick the child to be adopted and they want girls so that they may be companions for them. Most women have the idea, also, that a girl is easier to bring up than a boy."

BERGER DENIED SEAT IN CONGRESS AGAIN

(By Associated Press)
Washington, Jan. 10—Victor Berger, Socialist representative-elect from Milwaukee, was denied a seat in the House today for the second time.

MENGES STANDS AT HEAD OF VIOLINISTS

Critics are saying that Isolde Menges stands on the threshold of supermanship in violinistic interpretation. She has drawn round her tributes that few artists in the past or present have had bestowed upon them. She is to give a concert here on Jan. 17 and that she will get a hearty welcome is already evidenced. Miss Menges' name is now bracketed with Ernst, Viouxtemps, Wieniowski, Sarasate. There is only one young violinist of this age that can be compared to Isolde Menges and that one is Heifetz, who was her fellow student in Russia. Heifetz is considered technically the superior of all violinists; but when it comes to interpretation, musicians and critics in Europe say that Menges is the greatest of this age.

Howard Edie, the manager of Isolde Menges, has booked numerous recitals for that artist this season in the United States and Canada, and after she has finished her tour she will leave for England, where engagements await her. She devotes a great deal of her spare time to educational work; giving children's recitals and talks on music.

Half of the proceeds go to the local Associated Charities.

Asks Congress For Relief Fund

Washington, Jan. 10—Secretary Glass today asked Congress for authority to advance \$150,000,000 for food relief in Austria, Poland and Armenia. He said it would relieve the situation until next fall. He asserted the assistance by the United States is "imperatively requested to relieve the desperate situation affecting millions of people."

REAL ESTATE SALES BREAK RECORDS

Deeds Showing Transfers of Property Flooding Office of County Clerk Here

All records for real estate sales in Madison county were broken during the year 1919, according to County Clerk J. W. Maupin, who records the deal for every piece of property sold, and therefore, is in a position to know what he is talking about. The County Clerk's office is deluged with deeds at this time, as most of the recent sales called for possession on January 1st. Some of them are for large and valuable tracts of land. Town lot transfers have also been very brisk as shown by deeds filed. The instruments which have been filed for record since last report, are as follows:

WOULD MEAN A LOT TO MADISON

Jackson County Ready To Pour Trade Into Richmond Over Proposed New Pike

As an indication of the interest that the people of Jackson county feel in the building of a pike from McKee to Richmond, via Big Hill, Mayor Evans has received a letter from County Agent Reynolds, of Jackson county. He says that after passage of the bond issue of \$125,000 by an almost unanimous vote, it is planned to ask the State Road Commissioner to designate the inter-county seat road as a federal highway, and in this way, connect it with the Dixie Highway here. If this is done, the state or government will pay half of the cost of the construction. It all depends upon what Madison is willing to do, according to those who are familiar with conditions. The rich trade from all of Jackson county is waiting to pour into Richmond. It is said that it will really be necessary to build only two miles of road, by this county, connecting the Berea pike off to the east with the pike which Jackson will build from McKee right on to Big Hill.

Mr. Reynold's letter to the Mayor shows how interested the people up there are. He writes: Hon. L. P. Evans, Richmond, Ky.

My dear Mr. Evans:

I am glad to report to you that our Road Bond issue carried by almost a unanimous vote in Jackson county on the 23, and it seems as if Jackson county will have an opportunity to get linked up with the outside world in the near future. Clay county has already voted bonds and I am just wondering what your county would be willing to do towards meeting these counties. I would like for you to give this information to the Daily Register for publication, as well as to call Judge Price's attention to this as we will want to know just what county is ready and willing to meet us. We have been talking with State Road Commissioner Boggs regarding a federal road through these counties connecting up with the Dixie Highway in your county, and we feel hopeful of results, provided Madison gets interested in this project. Would like to hear from you or any member of your court as to their ideas on this matter. With best regards, I am

Respectfully yours,
W. R. REYNOLDS,
County Agent
